

Welcome to the new generation of hi-fi.

Meet the new face of cutting-edge sound: the Nova Wireless Stereo Speaker System from Harman Kardon. Designed for beauty and performance, the Harman Kardon Nova has been developed with an attention to the smallest details of acoustics and materials. From the seamless, see-through enclosure that exposes the metal turbine housing for the woofers and drivers to the custom tuned DSP, every detail of the Nova screams standing ovation. As compatible as it is captivating, the Nova adapts easily to nearly any audio system, and offers both analog and optical connections as well as Wireless Bluetooth® with NFC so that you can play music from any device in your home, old or new.

FEATURES

- ▶ Powered 2.0 speaker system
- ▶ Wireless Bluetooth® connectivity with NFC for easy setup
- ▶ Analog and optical connections for versatile connection to any source
- ▶ Extended bass response from Dual passive radiators
